Date received: 23.04.03

Date analysed: 29.04.03

BACKGROUND

Fibrosan requested that Leatherhead Food International carry out some sensory taint transfer tests, on their Decopan GRP Panel.

OBJECTIVES

To test the tainting potential of Decopan GRP Panel in a food use environment

MATERIALS

Samples of Decopan GRP panel wrapped in aluminium foil were supplied through Fibrosan, and the tested samples were as follows:

Icing Sugar

Control –

Icing sugar

Test –

Icing sugar stored in an enclosed atmosphere in indirect contact with 5x20cm piece of walling

Butter

Control –

Unsalted butter

Test –

Unsalted butter stored in an enclosed atmosphere in indirect contact with 5x20cm piece of walling
